

Today's Live News of the Sunshine State

LUCERO BEGINS HIS PENITENTIARY SERVICE

Rio Arriba County Member of First State Legislature, Convicted of Soliciting Bribe, Starts Term.

Santa Fe, N. M., April 23.—June P. Lucero, of Rio Arriba county, a member of the first New Mexico state legislature, yesterday began serving his term of 18 months in the state penitentiary, for soliciting a bribe, of which he was convicted following the sensational room 44 incident during the senatorial election.

Lucero was convicted in the district court of solicitation of bribery and was sentenced by District Judge Edmund C. Abbott on March 19, 1915. He took an appeal to the state supreme court but it affirmed the decision of the district court.

Lucero was brought to the penitentiary by Sheriff Charles C. Closson, of Santa Fe county. It was stated at the penitentiary this afternoon that Lucero has not yet been assigned to his work.

The arrest of Lucero in room 44 in the old Palace, now De Vargas hotel, during the first state legislature, was one of the dramatic incidents preceding the balloting for United States senators to represent this new state. It was charged that Lucero had solicited money for his vote that \$200 of the alleged bribe was found in his vest pocket when he and three other legislators were arrested in the hotel.

LINCOLN COUNTY ROAD BOARD IS ORGANIZED

Carriazo, N. M., April 22.—The road board for Lincoln county has been organized with Dr. J. W. Lowe of Lincoln as president; J. B. French of Carriazo, secretary-treasurer, and Paul Meyer, White Oaks, member.

The board will purchase the necessary supplies for immediate road construction, including a road drag to be used exclusively on the Nogal hill section of the Roswell-Carrizozo mail route. The necessary money and the past few months have rendered it necessary to devote considerable work on this piece of road. At its last meeting bills to the amount of \$1,500 were allowed by the board.

During the months of February and March 440 acres of land within the Lincoln national forest, this county, were listed with the secretary of the interior and will shortly be opened to entry under the forest homestead act. The lands thus listed were applied for individually by five applicants and each one of these tracts was examined by a federal forest officer and found to be more valuable for agricultural than for forest purposes. Those whose applications within this restricted district were favorably acted upon were: Nancy E. Berry; Parsons; Masario Cerreras; Willard; Fred F. Ferguson; Nogal; R. C. Hammett; Capitan; Oliver W. Pasch, Nogal. In addition to this, 1849 acres were listed to applicants within other national forests in the state.

Old Pioneer Dead at Jemez. Jemez, N. M., April 22.—Hugh Murray, a pioneer resident of this section, who died recently, was buried here yesterday. He was formerly a contractor in Santa Fe but a few years ago devoted himself to his ranch and stock interests here to the exclusion of that business. He was a member of Montezuma lodge, A. F. & A. M., and had a wide circle of friends, especially among the older residents.

Commencing Thursday morning at 9 a. m. and lasting for thirty days, I will sell the entire bankrupt stock of The Leader regardless of cost. H. L. Foote, trustee. 305 W. Central.

ROSWELL PROPOSES TO STOP FLOODS IN FUTURE

Concerted Action to Secure Protection on the Hondo Taken by Prominent Citizens; Reclamation Service Must Help.

Roswell, N. M., April 23.—As a result of the flood which came down from the Hondo dam last week, inundating a part of Roswell, action is being taken by leading business men to secure flood protection work, by the reclamation service, and by the local authorities which will protect this city from future disaster of the kind for all time to come. A mass meeting is to be held at which the matter will be discussed and representatives will be sent to Washington. It is expected, to lay the condition of the Hondo project before the reclamation service.

LOCAL CONTRACTORS LAND BIG JOB IN GRANT COUNTY CAMP

Harian & Son, contractors of this city, have been awarded part of the contract for construction of the new plant at Tyrone by Phelps, Dodge & Company, according to the following from the Silver City Independent:

Confirmation of the exclusive announcement in the Independent last week of the decision of the Phelps-Dodge company to begin the construction of new buildings at Tyrone to cost \$200,000 in the aggregate, came yesterday when it was learned that J. A. Harian & Son, Albuquerque contractors, who are now completing the handsome new \$25,000 Santa Fe railway passenger station in this city, had been awarded the contract for upwards of \$50,000 worth of work at Tyrone, which is to include the building of a number of reinforced concrete apartment houses for employees.

Contracts for other improvements, totalling \$150,000, have not as yet been let, so far as can be learned, but announcement of such is expected any day. It is believed the Harian will also secure the additional contracts.

Harian & Son is one of the largest contracting firms in the state, and before moving to Albuquerque the firm had its offices here, constructing a large portion of the original buildings at the United States military sanatorium at Fort Bayard.

ROSWELL ORDERS NEW BLOCK OF PAVING

Roswell, N. M., April 23.—The city council has authorized signature of a contract with the Kaw Paving company for the paving of Fourth street from Pennsylvania to Grand avenue, the work to begin within 30 days and to be completed in 90 days.

A Remedy For All Pain

"The efficiency of any drug," says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, for, something to relieve his pain. If we can arrest this promptly, the patient is most liable to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-kamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kamnia Tablets are also excellent for the headaches from improper digestion; also for headaches of a neuritic origin, and especially for women subject to pains at certain times. Two Anti-kamnia Tablets give prompt relief and in a short time the patient is able to go about as usual." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unsuited for headaches, neuralgia and all pains.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble. It is often the kidneys' cry for help. Heed it.

Read what Doan's have done for Albuquerque people.

D. L. Brown, 720 Second street, Albuquerque, says: "Off and on for three or four years my back and kidneys troubled me. My back was very painful when I was at work and in the morning the trouble bothered me. I had a dull heavy ache across my loins most of the time. Now and then I felt sharp twinges in my back and it was hard for me to straighten. More than once I couldn't straighten. When I read about Doan's Kidney Pills, I got a box and began using them. I could see a great improvement in a short time. The pains were relieved and the kidney secretions became natural."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y.

RESIGNATION OF HIGH SCHOOL MEN UP IN ARMS ON STATE BOARD ACTION

Resolution Which Places 8th Grade Normal School Pupil on Par With High School Graduate Condemned

DISCRIMINATION IS THE MILDEST CHARGE Too Much Politics, Say High School Men Now Meeting Here, Who Propose to Fight the Board's Action.

City school superintendents and high school principals, here today from all parts of New Mexico to attend the interscholastic track meet and the conference of the executive committee of the state educational association, to a man are up in arms against a recent action of the New Mexico state board of education, by which the eighth grade pupil in the state normal schools is made the equal, for teaching certification, of the graduate of the full high school course.

The question will come before the conference of high school principals tonight, and will be an issue before the coming state teachers' convention, to be held here in November, unless the action of the state board shall have been rescinded before that time. The protest of the educators has been laid before Governor McDonald and has had the more or less vigorous consideration of educators throughout the state. Superintendent Alvan N. White, head of the state department of education, voted against the offending resolution, when it was passed by the board at the meeting of February 1-6. Four members of the board voted for it, two of them, Messrs. Frank H. H. Roberts and E. L. Enloe, being heads of the state normal schools at Las Vegas and Silver City, respectively.

The definite charge is made that the normal school men, having control of the state board, are using that board to advance the interests of the state normal schools at the expense of the high schools.

The resolution complained of, and a supplementary one passed by the board, with regard to certification of high school graduates, as taken from the minutes of the board meeting, are as follows:

"Motion was made by Dr. Roberts that a student completing the course of study of the first eight grades in New Mexico normal university and the Spanish-American school at El Rito, and in addition thereto credits in school management and elementary pedagogy, shall be granted second grade certificates good for two years without examination." Motion was seconded and carried by the following vote: Swinney, Roberts, Enloe, Montoya, yes; White, no.

"That the question of granting county certificates to graduates of high schools be left open until the next meeting and that in the meantime the state superintendent make an investigation of the matter. The proposed change would provide that graduates from four year high schools be granted second grade certificates upon graduation and then upon a showing of successful experience, covering at least ten months, and presenting additional credits in psychology and elementary pedagogy, a first grade certificate, renewable, shall be granted, provided that such high school graduates have credits for physiology to unit, civics and history of the United States, including history and civics of New Mexico, 1 unit."

"We claim," said W. T. Conway, of Raton, superintendent of Raton schools and of the Colfax county high school, today, "that this resolution constitutes gross discrimination in favor of the normal schools and that the state board of education deliberately has been made the vehicle for such discrimination. Hon. John Morrow, president of our Colfax county board, and one of the men who led in the fight for establishment of county high schools in this state, was one of the business men to call attention to the discrimination carried in this resolution of the state board, and since that time school men, school board members and educators generally have united in protest against it. We propose to voice that protest in definite form during the conference here."

"It will be clear to anyone that unfair treatment is given to the high school graduate, who has taken full high school work, to class him or her, for purposes of certification for teaching, with the person who has completed the eighth grade in one of the state normal schools. We do not only see the injustice but we do not intend to stand for it."

Mr. Conway's statement was reflected generally by the school men who are here and who agree with him that the feeling against the resolution will be given definite form at once.

Organized baseball centers report big attendances. Old reliable Gen. Public seemingly hasn't deserted yet.

CRYING FOR HELP.

Lots of it in Albuquerque but Daily Growing Less.

The kidneys often cry for help. Not another organ in the whole body more delicately constructed.

Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble. It is often the kidneys' cry for help. Heed it.

You know what Cottolene is made of

It is an exact combination of pure ultra-refined cottonseed oil (a grade so high it is not listed in the market) with beef-stearine from selected, high-grade leaf beef suet.

That is what produces the splendid qualities for shortening, frying and cake-making in

Cottolene

There is an appetizing appeal in the thought that your foods are cooked with Cottolene—made of an oil that is far superior to most salad oils and as fine as the best, combined with the choicest part of rich, leaf beef suet.

Order a pall of Cottolene from your grocer today and use it in shortening, frying, or cake-making. It is economical—you use one-third less than of any ordinary cooking fat. Arrange with your grocer for a regular supply.

Write to our General Offices, Chicago, for our real cook book—"HOME HELPS"—free.

THE MYSTERIOUS CLOCK, WHAT MAKES IT GO?

What makes it go? That's what everybody is saying about the new "Mystery" clock. The mystery clock, to be hung on the corner of First street and Central avenue, is just a large glass case, with plain figures, two large hands and a tiny compass. Although it keeps perfect time there are no visible works or mechanism of any kind and everybody is trying to figure out what makes it go.

Standing in front of the clock the passerby can easily see in front, behind and all around the clock and see that there are no electric wires or springs to connect it with any mechanism which might be concealed in the window. You may have as many guesses as you like. What makes it go? Watch for it.

NOTICE.

I have today taken charge of the Albuquerque Cafe, 115 West Central avenue, and all creditors holding accounts against said cafe should present same within 5 days.

(Signed) P. M. LEAKOU.

Jess Willard, champion heavyweight, had a lurking suspicion the other day that Gotham fight fans are losing their first frenzy over his victory. Willard and Manager Tom Jones went to White Plains to give an exhibition. Jess was guaranteed \$150, but when the promoters did not fork over and Jess saw only 200 spectators in the "house," he refused to put on the gloves and motored back to the city.

A sharp lookout is being kept at United States ports for the Johnson-Willard films.

"PUPPEN-FEE" AS IT IS DONE BY ANNA PAVLOVA

Among the greatest successes of the metropolitan season of Russian ballet this year as given by Anna Pavlova, the wonderful Russian danseuse, was "Puppen-Fee" (The Fairy Doll). Perhaps because it has more of the light and merry humors of dancing and miming than any ballet seen either in this country or abroad where the ballet is continually in evidence, or because its any little story is one that appeals to children of all ages from six to sixty, "Puppen-Fee" is considered to have proved one of the most delightful works of the ambitious Pavlova tour.

There come the visitors to the toy shop, quality clothed, to see and buy the toys; one by one the dancers mime the mechanical figures—the drum major tosses his baton; there is the impressionable poet, the speaking doll, the jerky soldiers, each with miming humor, and last, from her hiding-place, comes the old toymaker's prize doll, mimed by a very blonde and sparkling Pavlova. But once the day is done and the shop is closed for the day, the dolls come forth from hidden places for their own ball and dance in whimsical and often wonderful fashion.

"Puppen-Fee" is set in two acts.

The first is a fancifully dreamed toy shop with more crowded shelves than ever nursery fancy invented, and the second the fantastic realization of what a child might dream for so vividly that the desirable sight might cling in his mind to maturity. Daring, the young Russian who has given this first work of the future to Americans to America, is considered ahead to have largely superseded the yet famous Lilies and Annette. In this quaint world set the moon grins out of the heavens; comets twist their tails, the stars have fuzzy rays. On the shore of a "moon" lake there are called all the comicalities of fairy tales; there are phantoms towers, and the ought-to-be there phantasmagorical domes and roofs. For the first time Mlle. Pavlova has given Americans a glimpse of the most advanced scenic effects the world yet knows.

The Leader's bankrupt stock will be sold by the court in the next thirty days regardless of cost. 305 W. Central.

E. Proulx, of 519 South Third street, a switch foreman employed by the Santa Fe railroad, is confined to the house by a broken collarbone received when he was crushed between two cars Wednesday night in the lower yard.
